

20th EAEEIE Annual Conference

June 22-24, 2009. Valencia, Spain

Table of Contents

[Return to main menu](#)

1. [Using graphics: motivating students in a C++ programming introductory course](#)
Garrido, A., Martinez-Baena, J., Rodriguez-Sanchez, R., Fdez-Valdivia, J., Garcia, J. A.
2. [Interactive Smith Chart for Microwave Engineering Students](#)
Francisco Ramos
3. [Simulation Tools for Active Learning in Robot Control and Programming](#)
G. López-Nicolás, A. Romeo, J. J. Guerrero
4. [Final Year Projects in Electrical and Information Engineering: Tips for Students and Supervisors](#)
Máximo Cobos, Sandra Roger, José J. López and Alberto González
5. [Lighting Design Course in an Electrical Engineering Programme Using Problem-Based Learning](#)
M. M. Travassos Valdez, C. I. Faustino Agreira, C. Machado Ferreira, F. P. Maciel Barbosa
6. [Improving the Evaluation of Concept Maps: a Step-by-step Analysis](#)
Carlos T. Calafate, Juan-Carlos Cano, Pietro Manzoni
7. [Navigation Systems Teaching Method Based on Multidisciplinary Practicals](#)
Felipe Jiménez, José Eugenio Naranjo, Óscar Gómez
8. [Development of Remote Laboratory Experiences in Microelectronics and Intelligent Instrumentation](#)
B. Calvo, N. Medrano, S. Celma, C. Aldea
9. [Proposal of a Quality Model for Educational Software](#)
I. Plaza, R. Igual, J.J. Marcuello, S.Sanchez, F. Arcega
10. [Semi-Virtual Lectures on Physics](#)
Cristina Periago, Arcadi Pejuan, Xavier Jaén, Xavier Bohigas
11. [Misconceptions about the Propagation of Sound Waves](#)
Cristina Periago, Arcadi Pejuan, Xavier Jaén, Xavier Bohigas
12. [Comparing open-source e-learning platforms from adaptivity point of view](#)
N. Ruiz Reyes, P. Vera Candeas, S. García Galán, R. Viciano, F. Cañadas, P.J. Reche
13. [Multinational Undergraduate Team Work: Collaborative Learning in International Teams](#)
Nuno Escudeiro, Paula Escudeiro, Ana Barata
14. [Real-Time Software-Intensive Systems Engineering: An International Perspective](#)
Miroslav Sveta, Andrew J.Kornecki, Thomas B.Hilburn, Wojciech Grega, Jean-Marc Thiriet, Ondrej Rysavy

20th EAEEIE Annual Conference

June 22-24, 2009. Valencia, Spain

15. [Missions and evaluation criteria of doctoral studies in Electrical and Information Engineering in the frame of European Higher Education Area](#)
Olivier Bonnaud
16. [A student-centered learning model applied in an introductory Software Engineering course](#)
Francisco J. García Peñalvo, Sergio Bravo Martín, Miguel A. Conde González
17. [A Feedback from the Graduates as a Basis of Quality of Education Assessment. Casestudy Research at Lublin University of Technology](#)
Andrzej Wac-Wodarczyk, Piotr Billewicz
18. [Gender Comparison - the Students' Feedback on Web Course "Electricity, Electronics and Environment" for the Senior Secondary School](#)
Maarit Vesapuisto, Leena Korpinen, Timo Vekara
19. [Virtual Laboratories and their Implementation](#)
Josep Cuartero-Olivera, Antoni Pérez-Navarro
20. [Millimeter-Wave and Power Characterization for Integrated Circuits](#)
M. de Matos, E. Kerhervé, H. Lapuyade, J-B. Begueret, Y. Deval
21. [An Experience about Collaborative Learning in an Engineering Course belonging to "Dependency and Equality in Personal Autonomy" Master](#)
P. Reche-López, P. Vera-Candeas, R. Mata-Campos, N. Ruiz-Reyes
22. [Motivating students to study the basics of electronic engineering in the world full of electronics](#)
Anna Friesel
23. [A Supporting Plan for Freshmen at The Faculty of Computer Science of Valencia](#)
R.M. Alcover, M.J. Castro-Bleda, J.A. Ontalba-Ruipérez, E. Sanabria-Codesal, A. Terrasa, E. Vendrell
24. [ARaCS: Educational Software for Radio Channel Characterization with Swept-Time Delay Crosscorrelation Sounders](#)
Ana Vazquez Alejos, Manuel Garcia Sanchez, Iñigo Cuiñas, Felipe Gil Castiñeira
25. [From Tacit to Acknowledged Knowledge](#)
Jouni Ikonen, Harri Hämäläinen, Satu Alaoutinen, Kari Heikkinen, Jari Porras
26. [Multimedia Support in the Field of Interdisciplinary Education](#)
Vladana Djordjevic, Vaclav Gerla, Michal Hupnych, Lenka Lhotska, Vladimir Krajca
27. [A platform designed to motivate the autonomous learning about Computer Architectures](#)
S. García-Galán, J. E. Muñoz-Expósito, R. Viciano Abad, A. J. Yuste, N. Ruiz-Reyes, P. Vera Candeas
28. [Identification and control of a variable-speed drive: an interdisciplinary teaching approach](#)
Serge Bouter, Rachid Malti, Camille Armand
29. [Multidisciplinary and International Projects](#)
Manuel Fernández, Divina Gracia, Houcine Hassan, Enrique Ballester

20th EAEEIE Annual Conference

June 22-24, 2009. Valencia, Spain

30. [Real, Virtual, Simulated and Remote Experiments for Electrical Engineering Education](#)
Dorin Popescu, Dan Selisteanu, Qinghao Meng, Livia Carmen Popescu
31. [Tailoring Project-Based Learning for a Communications Engineering Course](#)
José A. López-Salcedo, Gonzalo Seco-Granados
32. [Adaptive Integral Assessment Package for the A2UN@ Project](#)
Beatriz E. Florián G., Silvia M. Baldiris, Ramón Fabregat Gesa
33. [CHARLIE: An AIML-based Chatterbot which Works as an Interface among INES and Humans](#)
Fernando A. Mikic, Juan C. Burguillo, Martín Llamas, Daniel A. Rodríguez, Eduardo Rodríguez
34. [The Nanoelectronics Training Roadmap of EuroTraining](#)
Zsolt Illyefalvi-Vitéz, Hervé Fanet
35. [Creating Interactive Learning Objects with Web Services](#)
Tarmo Robal, Ahto Kalja
36. [Methodology for Creation of Multidisciplinary, Transatlantic Engineering Program in Information Technology](#)
Wojciech Grega, Tom Hilburn, Andrew J. Kornecki, Ondrej Rysavy, Miroslav Sveda, Jean-Marc Thiriet
37. [3D Animations Used for Teaching](#)
F. M. Gómez-Campos, S. Rodríguez-Bolívar, A. Luque-Rodríguez, J. A. López-Villanueva, J. A. Jiménez-Tejada, P. Lara-Bullejos, J. E. Carceller
38. [Designing Context-Aware Adaptive Units of Learning Based on IMS-LD Standard](#)
Sergio Gómez, David Huerva, Carolina Mejía, Silvia Baldiris, Ramón Fabregat
39. [Providing Self-learning to Students of Highly Attended Electronics Courses through the Remote Access to a Microelectronics Laboratory](#)
Marisa López-Vallejo, Ángel Fernández Herrero, Pablo Ituero and Gabriel Caffarena
40. [Accurate Knowledge Evaluation by Deep Datamining in Telecommunication Engineering Studies](#)
Roberto Llorente, Maria Morant
41. [A playful approach for learning Intelligent Systems in Engineering](#)
Carlos A. Iglesias, Mercedes Garijo, Francisco Santiago
42. [An Approach for Teaching Software Engineering through Reverse Engineering](#)
Cristóbal Costa-Soria, Manuel Llavador, María del Carmen Penadés
43. [Mixing Collaborative Learning Techniques for Practice Evaluation in Networking](#)
Miguel Garcia, Hugo Coll, Miguel Edo, Jaime Lloret
44. [Interdisciplinary Projects in Teaching “Microprocessor Systems”](#)
Nina Bencheva, Nikolay Kostadinov, Yoana Ruseva

20th EAEEIE Annual Conference

June 22-24, 2009. Valencia, Spain

45. [Development and Test of an Antenna Simulator for Transmitter-Receiver Radio P/PRC525](#)
Ángelo Silva, A. J. Serralheiro, Maria João Martins, Moisés S. Piedade
46. [Application in Optical Communications Courses of tools for the Visualization and Numerical Calculation of Guided Waves and Dispersion Effects in Step-Index Fibres](#)
Samuel Ver Hoeye
47. [Learning Content Production with XML and Java](#)
Alberto González Téllez
48. [A Sectoral Qualification Framework for Engineers and Computer Scientists](#)
Michael H.W. Hoffmann, Jürgen Grünberg, Manfred Hampe, Hans-Ulrich Heiß, Gerhard Müller, Heike Schmitt
49. [Outcome Analysis of Bachelor and Master Curricula in Electrical Engineering and Computing](#)
Hans-Ulrich Heiss, Cornelia Raue
50. [Curricula Design Flow with Embedded Accreditation](#)
Dante Del Corso, Muzio Gola, Maurizio Rebaudengo
51. [Cooperation with IT Companies at CherkasyState Technological University](#)
Hryhoriy Zaspá, Olena Danchenko
52. [The Effect of Time and Place Dependence When Utilizing Video Lectures](#)
Ismo Hakala, Sanna Laine, Mikko Myllymäki, Jari Penttilä
53. [Teaching Research in the Laboratory Using Diagnosis Environment for Digital Systems](#)
Sergei Kostin, Raimund Ubar, Jaan Raik, Margit Aarna, Marina Brik, H.-D. Wuttke
54. [Software Tool for the Understanding of Parametric Oscillations](#)
Franco Ramírez, Almudena Suárez, Sergio Sancho
55. [EIE Education Restructuring Due to Social Changes](#)
Jaromír Hrad
56. [Virtual and Remote Laboratory of the Ball and Beam System](#)
José Luis Díez, Marina Vallés, Ángel Valera
57. [Results and dissemination of the EIE-Surveyor thematic network](#)
J.M. Thiriet, A. E. Ward, M. J. Martins, D. Deniz, D. Pasquet, M. Hoffmann, H. Fremont, H. Yahoui, O. Bonnaud, M. Robert, J. Barsics, J.V. Benlloch-Dualde
